

Call for Submissions

for the conference

Beyond Kyoto: Addressing the Challenges of Climate Change - Science Meets Industry, Policy and the Public

5 – 7 March 2009

Aarhus, Denmark

The objective of the Conference is to contribute to advanced use of knowledge as the basis for regulatory frameworks, innovation and the development of new technologies for sustainable development and eco-efficiency.

The conference addresses the challenges of climate changes by bringing together scientists, NGOs, and leading decision-makers from the private and the public sector to facilitate the integration of current, cutting-edge scientific knowledge and experiences with the industrial, political and public future needs. For more information about the conference, please refer to:

<http://klima.au.dk/index.php?id=konferencebeyondkyoto>

Papers are invited for the 6 themes of the conference under the following sub-headings:

Theme 1: Climate Policy – the Role of Law and Economics

- Session 1: Legal Analysis of a long-term Cooperation Action
- Session 2: Regulation, Economic Analysis and Impact of Policy-based Commitments
- Session 3: Investment and Financial Flows to Address Climate Change
- Session 4: Infrastructure and Management of Growth (“Smart Growth”)

Theme 2: Biodiversity and Ecosystems

- Session 1: The Scientific Basis for Predicting the Impact of Future Climate Change
- Session 2: Mitigation by Management of Natural Areas
- Session 3: Adaptive Management of Land- and Seascapes
- Session 4: Climate-change and the Impacts of Agriculture on Ecosystems and Biodiversity
- Session 5: The Role of Global Environmental Conventions in Protection of Biodiversity and Ecosystems in a Phase of Climate Change

Theme 3: Agricultural Production

- Session 1: Impacts and Adaptation in Developing Countries – including LULUCF
- Session 2: Impacts and Adaptation in Intensive Agricultural Systems
- Session 3: Reducing Agricultural GHG Emissions
- Session 4: The Role of Bioenergy and Biofuels

Theme 4: Nanotechnology Solutions for a Sustainable Future

- Session 1: Nanotechnology and Renewable Energy
- Session 2: Hydrogen Technology
- Session 3: Solar Energy
- Session 4: Wind Energy
- Session 5: Catalysis and Biofuels

Theme 5: Citizens and Society

- Session 1: Social Behaviour and Energy Efficiency
- Session 2: Communication and Climate Change
- Session 3: Corporate Social Responsibility
- Session 4: Participation, Learning and Socio-Cultural Change

Theme 6: The Arctic Case

- Session 1: Climate in the Arctic – Past, Present and Future
- Session 2: Marine Ecosystem Changes and Feedback in the Arctic
- Session 3: Use of Natural Resources and Economics
- Session 4: Human Health and Socio-Economic Aspect of Changing Environment

Please send in your abstract (250 words) and full contact details **by 1 September 2008** to Marianne Vonsild (mvo@adm.au.dk) with the subject 'Beyond Kyoto: CfS'.

Accepted papers/posters will be announced 1 October 2008. The programme will be published shortly after this date.
